<b>Category:</b>	Drupal	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
Required technologies: Ubuntu (can use docker), php 8.1, drupal, git			
<ul style="list-style-type: none"><li>In this project: <a href="https://www.drupal.org/project/rules">https://www.drupal.org/project/rules</a></li><li>maybe line 92 here: <a href="https://git.drupalcode.org/project/rules/-/blob/8.x-3.0-alpha7/src/Engine/ActionExpressionContainer.php?ref_type=tags">https://git.drupalcode.org/project/rules/-/blob/8.x-3.0-alpha7/src/Engine/ActionExpressionContainer.php?ref_type=tags</a></li><li>maybe line 213 here: <a href="https://git.drupalcode.org/project/rules/-/blob/8.x-3.0-alpha7/src/Plugin/RulesExpression/RuleExpression.php?ref_type=tags#L213">https://git.drupalcode.org/project/rules/-/blob/8.x-3.0-alpha7/src/Plugin/RulesExpression/RuleExpression.php?ref_type=tags#L213</a></li></ul>			
I get deprecation messages when an email is sent. The email is still sent! This is not an error per se, this is a deprecation warning being shown as an error.			
It's best to actually fix the error, however! I don't need this error to be fixed, if you can just avoid showing the deprecation error.			
There are two ways to solve this: either fix the problem with the rules module, or turn off deprecation reporting so that the message isn't shown.			
Here is the error message I get:			
!%202023-10-03%20at%2012.53.16%20PM.jpg! !%202023-10-03%20at%2012.54.40%20PM.jpg!			
Here is my composer file and lock: [ATTACHED]:			
<ul style="list-style-type: none"><li><a href="https://redmine.wasya.co/attachments/367">https://redmine.wasya.co/attachments/367</a></li><li><a href="https://redmine.wasya.co/attachments/368">https://redmine.wasya.co/attachments/368</a></li></ul>			
I can also provide the database (mysql) dump.			
I can also provide SMTP credentials, and other configuration necessary to start the project locally.
