

[P] Infinite Shelter - Task #3137

Write a Drupal controller (form submission method) that publishes to Instagram, when some Content is created

2023-10-03 06:58 PM - victor piousbox

Status:	New	Start date:	2023-10-03
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Drupal	Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<ul style="list-style-type: none">• This is a medium-difficulty task.• I am available to help setup, answer questions, provide advice• publishing on Instagram can be done with curl, as described here: https://developers.facebook.com/docs/instagram-api/guides/content-publishing			
Work should be done in demmitv_drupal_module (and demmitv_drupal_theme if necessary).			
There is the Content Type called Sketch. When a new node of type Sketch is created, I want the same content to be published to Instagram.			
<ul style="list-style-type: none">• new node is created here: https://github.com/wasya-co/demmitv_drupal_module/blob/0.0.0/src/Form/NewSketchForm.php#L62• I referred to this, to write it: https://drupal.stackexchange.com/questions/185442/how-can-i-programmatically-create-a-node
